

What our November 2008 Sri Lanka Prize Winners have to say

Pavalanathan Priyanthan – Sri Lanka Prizewinner for Management Accounting Decision Management, and Joint Sri Lanka Prizewinner for Financial Analysis states “I was moved by the exceptional interest shown by Wisdom on the progress of each and every student. Providing up-to-date study materials and friendly learning environment helped me a lot to attain this achievement. The guidance and support rendered by my lecturers was immense. At each and every lecturing session we were molded towards the examination, creating a greater confidence to face the examination successfully”.

Dimuthu Obeysekera – Joint Sri Lanka Prizewinner for Organisational Management & Information Systems states “Since I am a full time university student, I hardly have any time for extra studying, but since the course at Wisdom has been so well structured I only need to my day-to-day class work to keep up my knowledge on the subject. All the lecturers were extremely helpful in providing me with a thorough understanding of the subject. Any doubts presented were promptly clarified. Both the lecturers provided good study methods giving me a genuine interest for such a theoretical subject. A proper revision programme was conducted and all the materials were reviewed using mind maps and summaries”.

Nidharshana Thiyagalingam – Joint Sri Lanka Prizewinner for Organisational Management & Information Systems states “This achievement was made a reality, thanks to the guidance and support that was rendered to me by my lecturers. They approached the subject with 100% commitment and dedication which ensured that we all followed the correct path to success. Along with covering the entire syllabus our lecturers also helped us improve our essential writing skills and exam techniques, so that all of us sat for the exam with greater confidence”.

Charith Mendis - Sri Lanka Prizewinner for Management Accounting Performance Evaluation states “Wisdom environment was really a place in which I was able to acquire wisdom, as it helped me a great deal in nurturing my abilities. The lecture panel was truly dedicated towards their respective subjects and I think I am privileged to have been under the guidance of them. Again I say Wisdom delivers what it says it will deliver, sometimes even exceeding expectations. So according to my point of view I strongly recommend Wisdom to carry on your CIMA studies”.
